

## Game plan

Game Background: The game is about an owl returning to its own house.

The background picture of the game is a tree under a blue sky, and the owl's home is on a board on the tree.

The player needs to use the space bar to control the owl to fly upward. Otherwise, the owl will land automatically. If the owl drops too fast, he will not be able to land on the board and the ground game will fail. The player can click the restart button to restart the game.
